

## **MEMORANDUM**

**To:** Mayor and City Council Members  
Steve Parker, City Manager

**From:** Melissa Reynolds, P.E., CFM, MPA, City Engineer

**Through:** Rick Cortes, Deputy City Manager

**Subject:** Ordinance restricting through truck traffic E Pine St from N Austin St to N King Street

**Date:** February 6, 2024

Current City ordinance designates “no through truck traffic” streets as streets with a restriction on through commercial vehicles with two or more rear axles unless they are making a delivery to an address on that street. East Pine Street between North Austin Street and North King Street currently has truck traffic that is using E Pine St to traverse between the two larger roadways. E Pine St is not classified on the City’s Master Thoroughfare Plan, therefore classified as a local street. There are many homes fronting Hidalgo St and the primary land uses are residential.

Due to the limited existing right-of-way and surrounding residential land uses, staff is recommending a through truck restriction on East Pine St between N Austin Street and N King Street.

Citizen(s) have requested a through truck restriction on E Pine Street between N Austin Street and N King Street. Staff will be available to answer any questions at the February 6, 2024 City Council meeting.
