Good afternoon!

I have questions in regards to shelter in place.

When will we Seguin (or Guadalupe county) set a shelter in place? In a post from New Braunfels's Herald-Zeitung, it was reported that the 2 Guadalupe county residents living in New Braunfels contracted Covid-19 through community spread contact.

Now for the cases in Seguin. I've been following the posts from the Seguin Gazette SeguinToday and Judge Kutscher's posts. People in this town will leave out of town (to another county) and may contract the virus and continue the spreading of the infection.

Dr Fauci, on President Trump's coronavirus team has made side comments as to "why aren't these states performing shelter in place?" due to the rise in infections.

I've never been involved in these types of things with city council but as a 36 yr old Seguin resident who has been affected by the domino affect the virus created by shutting down our big 3 automotive giants in Michigan, mind you Ive worked 18 years for an automotive electronics facility here in Seguin.

My concern is for the safety of all Seguinites as well as yours. This virus is community spread and assuming by its mutations it can now be spread through just breathing someone's own breath.

So to re-iterate my question: when will shelter in place occur? The city of Seguin and this county must take on these measures to ensure the health and safety of it's residents.

Once shelter in place is implemented and be strict with the measures as far as jail time/fines, we can be able to get back to work soon.

Let's stop the spread.

Regards,

Please issue a shelter-in-place order and start handing out fines. Handle this before it gets worse. The faster YOU act, the better for our hospital.

My question is: Is there a plan for a curfew to be instated? If so, what time will that be?

Will people who have gotten tested for Covid 19 and are waiting results be fined for going out into the community? It really seems unless our city takes a stand with this we will have more cases and possible deaths. The only way to help prevent this from happening again is to have some sort of consequence in place.

Thank you
