### **3. PRICING**

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily

Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

#### **4. PRODUCT AND PRICING CHANGE REQUESTS**

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

(NYSE: REVG), a manufacturer of industry-leading specialty vehicles, today reported results for the three months ended July 31, 2021 ("third quarter 2021"). Consolidated net sales in the third quarter 2021 were \$593.3 million, representing an increase of 1.9% compared to \$582.2 million for the three months ended July 31, 2020 ("third quarter 2020"). The increase in consolidated net sales was primarily due to an increase in net sales in the Recreation and Commercial segments partially offset by a decrease in net sales in the Fire and Emergency ("F&amp;E") segment.</p> <p>The company's third quarter 2021 net income was \$23.7 million, or \$0.36 per diluted share. Adjusted Net Income for the third quarter 2021 was \$24.5 million, or \$0.37 per diluted share, compared to Adjusted Net Income of \$6.3 million, or \$0.10 per diluted share, in the third quarter 2020. Adjusted EBITDA in the third quarter 2021 was \$41.6 million, compared to \$21.4 million in the third quarter 2020. The increase in Adjusted EBITDA during the quarter was driven by increased contribution from the F&amp;E and Recreation segments partially offset by a decrease in the Commercial segment.</p> <p>Fire &amp; Emergency Segment</p> <p>F&amp;E segment net sales were \$269.5 million in the third quarter 2021, a decrease of \$37.2 million, or 12.1%, from \$306.7 million in the third quarter 2020. The decrease in net sales compared to the prior year quarter was primarily due to decreased shipments of fire apparatus and ambulances units compared to the prior year quarter related to supply chain disruption and labor constraints. F&amp;E segment backlog at the end of the third quarter 2021 was \$1,229.5 million, an increase of \$189.8 million compared to \$1,039.7 million at the end of the third quarter 2020. The increase was primarily the result of continued strong demand and order intake for fire apparatus and ambulance units.</p> <p>F&amp;E segment Adjusted EBITDA was \$15.8 million in the third quarter 2021, an increase of \$2.9 million, or 22.5%, from \$12.9 million in the third quarter 2020. Profitability within the segment benefited primarily from cost and efficiency improvements and lower selling, general and administrative ("SG&amp;A") costs, partially offset by lower sales volume and inefficiencies resulting from supply chain disruptions and labor constraints.</p> <p>Working Capital, Liquidity, and Capital Allocation</p> <p>Cash and cash equivalents totaled \$9.2 million as of July 31, 2021. Net debt<sup>2</sup> was \$240.8 million, and the company had \$276.8 million available under its ABL revolving credit facility as of July 31, 2021, an increase of \$53.1 million as compared to the April 30, 2021 availability of \$223.1 million. Trade working capital<sup>3</sup> for the company as of July 31, 2021 was \$405.5 million, compared to \$449.9 million as of July 31, 2020. The decrease was primarily due to decreased accounts receivable and decreased inventory partially offset by decreased payables. Capital expenditures in the third quarter 2021 were \$5.3 million compared to \$2.0 million in the third quarter 2020.</p> <p>Share Repurchase Program</p> <p>On September 2, 2021, the company's board of directors approved the authorization of a new share repurchase program that allows the repurchase of up to \$150.0 million of the company's outstanding common stock, effective immediately. The share repurchase authorization expires in 24 months and gives management the flexibility to determine conditions under which shares may be purchased.</p> <p>Quarterly Dividend</p> <p>The company's board of directors declared a quarterly cash dividend in the amount of \$0.05 per share of common stock, which equates to a rate of \$0.20 per share of common stock on an annualized basis, payable on October 15, 2021, to shareholders of record on September 30, 2021.</p>

14	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	NO.	*
15	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? Answer whichever question (either a) or b) just below) best applies to your organization. a) If your company is best described as a distributor/dealer/reseller (or similar entity), provide your written authorization to act as a distributor/dealer/reseller for the manufacturer of the products proposed in this RFP. If applicable, is your dealer network independent or company owned? b) If your company is best described as a manufacturer or service provider, describe your relationship with your sales and service force and with your dealer network in delivering the products and services proposed in this RFP. Are these individuals your employees, or the employees of a third party?	We are best described as a manufacturer and service provider.  In most cases dealers are contracted to represent our brands in designated/agreed territories (U.S., Canada, and International locations). These territories differ in size based on each dealership's capability. Dealers then provide sales, service, and parts support. Dealers issue purchase orders for requested products/services and resell these to the end user/member. Each dealer is an independent business and each have their own employees/facilities. Where dealers are under contract to represent our brands it is our expectation the Sourcewell member will issue purchase orders directly to our authorized dealer. These dealers are listed on the dealer list for each respective brand.  There are two additional scenarios: 1. In cases where there is no dealer coverage each brand provides a direct company employee to manage the sales and service of customers/members in these areas. In these cases the contract will be thru the respective brand and the Sourcewell member would issue the purchase order directly to the brand. 2. In cases where the REV Group has local facilities, these employees are company employees who provide sales, service, and parts to customers/members within their area of responsibility. The Sourcewell member would issue their purchase order to the REV RTC facility just as it were an approved dealer.	*
16	If applicable, provide a detailed explanation outlining the licenses and certifications that are both required to be held, and actually held, by your organization (including third parties and subcontractors that you use) in pursuit of the business contemplated by this RFP.	License requirements vary across North America. The REV Group and its dealer representatives are expected to adhere to all requirements be it a business license, insurance requirements, sales representative licensing, or service technician certification.	*
17	Provide all "Suspension or Debarment" information that has applied to your organization during the past ten years.	N/A	*

**Table 6: Ability to Sell and Deliver Service**

Describe your company's capability to meet the needs of Sourcewell participating entities across the US and Canada, as applicable. Your response should address in detail at least the following areas: locations of your network of sales and service providers, the number of workers (full-time equivalents) involved in each sector, whether these workers are your direct employees (or employees of a third party), and any overlap between the sales and service functions.

Line Item	Question	Response *
25	Sales force.	The REV Fire Group have a confirmed 533 full time sales associates and another 223 part time sales associates. There were however several dealers who did not provide this additional information so the number would be higher. This accounts for all reported brands, dealers, service centers, and Spartan OEMs within the U.S. and Canada.
26	Dealer network or other distribution methods.	<p>The REV Fire Group has 36 dealers representing the E-ONE brand, 20 dealer representing the Ferrara Fire brand, 30 dealers representing the KME Fire brand, 28 dealers representing the Spartan Fire, LLC brand, and 37 OEMs representing the Spartan Chassis brand. Several dealers represent two or more brands but usually specialize in one brand over the other due to their past experience.</p> <p>The 37 OEMs will play a key part in adding Spartan chassis as a new product offering for the REV Group/REV Fire Group. Spartan chassis has never been offered on any other cooperative purchasing contract. These 37 OEMs will be able to work with members to provide chassis pricing for apparatus re-chassis, accident repairs, apparatus upgrades, or body remounts.</p> <p>See the attached dealer list/dealer survey results.</p>
27	Service force.	The REV Fire Group have a confirmed 519 Emergency Vehicle Technicians (EVTs) and another 665 non-EVT technicians. As stated above, not all dealers responded to our survey so the number is actually higher. This accounts for all reported brands, dealers, service centers, and Spartan OEMs within the U.S. and Canada.

28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	The typical process if for the member to work with the local brand dealer/representative to configure the apparatus to meet their mission, their design requirements, and their budget. The configuration is normally sent for review by the engineering team for approval/changes. Once the member agrees on the configuration and the quoted amount they place the order with the brand dealer/representative. The order is accepted, the member works with the brand and dealer representative to set up a date for a pre-build conference. During the pre-build conference the member can voice concerns or needed changes. The configuration is tweaked to meet any required changes. The updated configuration/price/drawings are presented to the member for his approval. A purchase order is issued by the member to the brand dealer and the dealer submits the order to the brand manufacturer. If there is no dealer involved, then the transaction would be the same except directly with the brand manufacturer/sales representative. Terms are COD when the completed apparatus leaves the manufacturer to be delivered.	*
29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	For service, parts, or customer service needs the member is always encouraged to first contact their local dealer representative. Most dealers and REV Group brands are open during normal daily business hours and respond quickly. Most offer after hour customer support should the member have an issue which needs to be addressed after normal business hours. Each brand and dealer have either toll free customer service numbers or an answer service able to get the correct person to respond.	*
30	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in the United States.	The REV Group/REV Fire Group has a distribution channel eager to service Sourcewell members anywhere in North America. Our 151 dealers/OEMs are ready and willing to work the the members to meet apparatus and apparatus support needs. With out vast array of available products, we are sure we can match our offerings to the members wants and needs.	*
31	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	During our last contract with Sourcewell we have eagerly supported the Canadian market by attending Canadian conferences and meeting with procurement professionals at the Ontario/Sourcewell joint conference. We support the CANOE initiative to promote Sourcewell's U S contracts and to adopt them as theirs. Business wise, we will need to adjust our U. S. pricing to reflect differences in currency, provide the additional testing for Canadian compliance, and collect for recycle fees imposed on batteries and tires.	*
32	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed contract.	While some areas can be very remote, we have always entertained answering the call where there is a need.	*
33	Identify any Sourcewell participating entity sectors (i.e., government, education, not-for-profit) that you will NOT be fully serving through the proposed contract. Explain in detail. For example, does your company have only a regional presence, or do other cooperative purchasing contracts limit your ability to promote another contract?	There are no entity sectors we will not serve and we have nothing limiting our participation in the Sourcewell contract.	*
34	Define any specific contract requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	We currently serve both areas. One key difference would be delivery cost when shipment of an apparatus is needed. Our estimated driveway cost is to deliver the vehicle to the port. Cost to prepare and ship the vehicle over water or via airlines is at the members expense in addition to our normal driveway expense.	*

**Table 7: Marketing Plan**

Line Item	Question	Response *
35	Describe your marketing strategy for promoting this contract opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>The REV Fire Group recently hired Natalie Childress as Senior Director of Marketing. She will partner with REV Fire Group's Vice President of Sales, Mike Virnig, and divisional teams to evolve brand strategy and consumer experience for the group's fire truck brands. Childress has more than nine years of marketing and brand experience, including five years of marketing and business development leadership experience.</p> <p>She most recently served as the Business Strategy Manager for Mastercraft Boat Company, driving global brand building and strategy. Prior to, Childress held progressive roles with a focus on cross-functional branding, product marketing and owners' experience within Sea Ray, part of Brunswick Corporation. She was recognized as a 40 Under 40 Marine Industry Leader this year by Boating Industry.</p> <p>She will be instrumental in leading us during our transition from a single brand within the Sourcewell contract to a multi-brand contractor. It will be important Sourcewell members understand REV Fire Groups capabilities and how each brand has responded as part of the RFP. Our goal would be for each brand to be linked from the Sourcewell awarded contract so members can view each brands product and service offerings versus only seeing an overview of all the brands as one.</p>
36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	Social media and digital advertising will be key to communicating to Sourcewell members our capabilities, our products, our services, and our brands.
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	It is important Sourcewell and the REV Fire Group brands work jointly to promote our partnership to serve the needs of the member base, and to recruit new members as we go forward. We currently promote Sourcewell and encourage our dealer partners to actively discuss all the opportunities for providing products and services to their organization under a single contract umbrella.
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	At this time only our parts procurement system provides e-procurement. The complexity of custom designing a fire apparatus is a programmers nightmare as the number of engineering rules has to change as each option is chosen. The programming must look for multiple options being selected for the same space, components hitting each other due to their movement, and another set of complicated rules to govern operation safety.

**Table 8: Value-Added Attributes**

Line Item	Question	Response *
39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	<p>As part the REV Group/REV Fire Group proposal, we are offering the following solutions in addition to our fire apparatus:</p> <p>Leasing - with REV Finance, other third party leasing companies within our industry, local banks or other third party financial institutions the member wishes to pursue.</p> <p>Parts contracts.</p> <p>Service contracts.</p> <p>Accident repairs.</p> <p>Apparatus refurb/upgrades.</p> <p>Vehicle trade-ins. This could be thru REV, the local dealer, or a third party vendor willing to purchase the vehicle.</p> <p>Maintenance contracts.</p> <p>Brand specific extended warranties.</p> <p>Vendor specific extended warranties.</p> <p>Training located at the brand's facilities or remotely offered at a location designated by the member. Training can be based on maintenance of the vehicle, operation of the vehicle, or as a refresher course where maintenance, safety, and operation are covered. Three days of training is standard and required to be performed by factory trainers on all aerials, industrial pumpers, and ARFF vehicles.</p>

40	Describe any technological advances that your proposed products or services offer.	<p>As part of the REV Group our other divisions are making great strides in electric vehicle (EV). For example:</p> <p>ENC® DEBUTS THE AXESS BATTERY ELECTRIC BUS (BEB) AT APTA EXPO THE FIRST EV BUS THAT IS ZERO EMISSIONS AND ZERO CORROSION. 41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>The REV Group is a leader in providing new products and technology which contribute to the green footprint needed to protect our environment. We promote recycling of all that is possible. REV recently released an occupant air purification and filtration systems to help reduce risk to toxins and viruses. This can be retrofitted to any vehicle manufactured. It removes 99% of impurities and treats the air for bacteria such as Covid 19.</p>	*
42	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>We do not have any 3rd party issued eco-labels. We do not see much of this in our industry even though you may provide the latest in technology such as our all electric fire truck.</p>	*
43	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	<p>We do not tract this. We do however look to do business with those companies which provide value for our customers. REV Group rewards women for doing a great job by promoting them as managers. REV Group honors our vets by having yearly luncheons and acknowledging their service to our country.</p>	*

44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	I think we have the best cradle to grave offering for your members. With the REV Group/REV Fire Group providing options from 7 fire apparatus brands, we are sure your members can find what they need. As custom builders we pride ourselves in exceeding the members expectations. Our total solutions include parts contracts, service contracts, training, accident repairs, apparatus refurb, upgrades, and remount. The addition of adding the Spartan chassis separately from a complete apparatus should provide your members one additional solution if they are looking to extend the life expectancy of their current vehicles.	*

**Table 9: Warranty**

**Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.**

Line Item	Question	Response *	
45	Do your warranties cover all products, parts, and labor?	Yes with limited time periods	*
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	Since warranty is a legal document with legal responsibilities, we do provide specifics related to lack of maintenance, abuse, neglect, misuse, and/or failure to notify. In some cases there may be certain inspections which must be performed to keep the warranty in force.	*
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	Yes	*
48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	Typically the selling dealer will service their sales territories. Each brand does support the distribution channel with factory based technicians. In cases where a problem is hard to remedy, both the dealer and the manufacture will team up to resolve the issue.	*
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	It depends on the severity and the approval extended by the supplier. We prefer to be a one stop shop for the member if he has a problem. In many cases the supplier requires the failure to be repaired by their technicians at their location.	*
50	What are your proposed exchange and return programs and policies?	Please see the attached document for this section.	*
51	Describe any service contract options for the items included in your proposal.	Service contract will normally be between the member and the selling dealer. In some cases service contracts can be thru the manufacturer. This scenario could be an option where there is a highly technical component of the apparatus the dealer may not have the expertise to correct. We offer extended warranties, drive train warranties, vendor component extended warranties, and third party extended warranties.	*

**Table 10: Payment Terms and Financing Options**

Line Item	Question	Response *	
52	Describe your payment terms and accepted payment methods.	Payment terms are COD at the time the apparatus leaves the plant for delivery to the customer. The selling dealer however may provide additional times based on the contract with the member. This could range from COD to 30+ days.	*
53	Describe any leasing or financing options available for use by educational or governmental entities.	The REV Group has our own internal finance company. We also use third part providers when asked to provide leasing quotes. We also recommend the member check with local lending institutions to make sure they are taking advantage of all resources to obtain the most competitive rates.	*
54	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	All brands would provide a quote to the member based on their custom configured apparatus. There would be contract between the selling dealer/manufacture and the member. Worksheets are typically used to calculate the agreed discount and the customer should receive a customer summary sheet if requested.	*
55	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Most of our brands do accept P cards with no additional cost involved. We do however have some brands who do not.	*

**Table 11: Pricing and Delivery**

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *
56	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Our pricing model discounts are based off MSRP minus a percentage or a flat discount on certain market specific products where discount are not normally offered. The pricing includes up to \$5,000 for driveway, PDI, and dealer delivery and training. Taxes, trips, pre-pay discounts, multiple quantity discounts, and trade-ins are not included in these prices but will change the price to the member if part of the order.
57	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	Pricing discounts range from 3% to 20% depending on the brand and the product offered. In some cases a flat fee discount is offered which ranges from \$5,000 to \$15,000.
58	Describe any quantity or volume discounts or rebate programs that you offer.	Depending on the model of the apparatus and the overall deal, multiple unit discounts could be offered starting at around 1% more per unit. This would be affected by the mix and the quantity of the apparatus purchased.
59	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	If the sourced items are items supplied by the brand, these would be treated as a part of the apparatus and the same discount would apply based on the model of the apparatus. For items purchased as loose equipment or customer requested items, these would be provide at cost with a 30% or less markup.
60	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Driveway up to \$5,000 is included and will be adjusted up or down based on the actual cost plus a \$200 admin fee. For shipments where the apparatus has to be shipped or flown to it's destination, these additional cost over and above getting the vehicle to the port would be the responsibility of the member. Pre-build and inspection trips are not included. Taxes are not included. NFPA requires we provide 3 days of training on all aerials, industrial pumpers, and ARFFs which is include in the quote. All other training is provided by the selling dealer.
61	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	As stated above, we have included up to \$5,000 allowance for delivery on each unit. If the actual price to deliver is less, the member will receive a credit. If the actual price is more, the member will be responsible for the added expense. This is also true for PDI and Dealer Delivery and training. We have included values within the quote for different models but the member could be billed more or provided a credit depending on the actual cost.
62	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	As stated above, our standard quote includes delivering the apparatus to the port. Cost associated with completing the delivery is on a case by case basis depending on the additional requirements set by the member. We would provide a quote for their approval.
63	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Nothing unique. We provide delivery of the vehicle as requested by the end user. If the apparatus is being shipped on a boat, the member might request the apparatus be wrapped and/or loaded in a container. The expense for these items would be based on a case by case basis and would differ based on the type vehicle, weight, size, and market price at the time of the shipment.

**Table 12: Pricing Offered**

Line Item	The Pricing Offered in this Proposal is: *	Comments
64	b. the same as the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	While we must be competitive on all cooperative procurement contracts, ultimately the market and the competition drive our pricing to your members. The key is which contract you use, its simplicity, and the support from the management team with the respective contract. Sourcewell is our go to contract.

**Table 13: Audit and Administrative Fee**

Line Item	Question	Response *
65	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	We use a self audit spreadsheet which gives the selling dealer a go/no go visual indicator of their compliance to the contract. The goal of the spreadsheet was to communicate how the numbers were calculated and to show the customer we met or exceeded the contracted discounts within the RFP. *
66	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	We track sales proposed as Sourcewell contracted business versus actual booked business. Currently this information can be sorted by quote number, truck number, customer, state/province, apparatus model, date sold, delivered/not delivered, and/or selling dealer. *
67	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	.75% of the contracted amount with admin fee ceilings based on the following: All commercial chassis products (except aerials) = \$1500.00 max All custom chassis products (except aerials) = \$1750.00 max All aerials = \$2000.00 max All apparatus accident repairs/re-chassis/body remount, apparatus upgrades, and Spartan chassis quotes = \$1750.00 max  Combinations of multiple apparatus purchased via the same purchase order = \$2000.00 max. *  The above admin fees were chosen to compete with the many other cooperative contracts the member would have at their disposal. If you use a straight percentage of 1% the admin fee will be too high and the member will move to the more competitive contract. Thus, the purchase will not be booked thru Sourcewell.  Parts and service programs/contracts as per the following:

**Table 14A: Depth and Breadth of Offered Equipment Products and Services**

Line Item	Question	Response *
68	Provide a detailed description of the equipment, products, and services that you are offering in your proposal.	<p>As it relates to fire apparatus: The REV Group and its multiple fire apparatus brands (REV Fire Group) offer Sourcewell members a wide variety of models. These include brush trucks, urban interface units, crew haulers, air and light units, light rescues, medium rescues, heavy rescues, combo rescues, walk-in/walk around rescues, command vehicles, hazmat vehicles, pumpers, rescue pumpers, wet side tankers, dry side tankers, vacuum tankers, elliptical tankers, aerial booms, aerial ladders, aerial platforms, ARFF units, ARFF foam testing units, and Rhino turrets. In addition to apparatus, we offer service/maintenance, parts, training, refurbishment/upgrades, accident repair services, and any other new/product or service agreed upon by the member and fits within the scope of the RFP.</p> <p>As it relates to Spartan Chassis - these chassis' are offered by many fire apparatus manufacturers which are not part of the REV GROUP/REV Fire Group. In most cases they are competitors of the REV Fire Group. That said, within the scope of the RFP, we wanted to provide our dealer partners and Spartan Chassis' OEMs the option to offer chassis upgrades, re-chassis options, wreck repairs, and body remounts on a new Spartan chassis via the Sourcewell contract, thus eliminate the requirement of going out to bid.. The agreed discount and admin fee would only be based on the chassis quote. All other expenses, labor, parts, and loose equipment would be listed separately from the chassis line item quote, must be approved by the Sourcewell member, and fit within the scope of the RFP.</p>
69	Within this RFP category there may be subcategories of solutions. List subcategory titles that best describe your products and services.	<p>For fire apparatus - we offer leasing, trade-ins, pre-pay discounts, and multiple unit discounts. For leasing this would be handled thru REV Leasing, one of many third party leasing companies within the industry, or through local institutions agreed upon by the member and fits within the scope of the RFP.</p> <p>For service/parts purchases - these would brand specific new parts, vendor supplied parts, brand/dealer supplied parts/loose equipment, brand/dealer supplied PPE/fire fighting support equipment, services (other-TBD) where the need expressed by the member fits within the scope of the RFP, and any volume discounts which may apply.</p> <p>For Product Life Cycle Extension Services - these would include wreck repairs, apparatus upgrades, apparatus refurb, dealer/third party annual aerial inspection/certification, dealer/third party annual pump testing, and dealer/third party contracted services (other-TBD) where the need expressed by the member fits within the scope of the RFP.</p> <p>For Extended Warranties - these would included warranties offered specifically by the brand (base warranty extensions and/or bumper to bumper warranties, third party drivetrain warranties, vendor supplied extended warranties, or additional warranties requested by the member and falls within the scope of the RFP.</p> <p>Contract Services - these would be brand provided service contracts, training offered by each brand, service contracts negotiated with our dealer partners, parts contracts negotiated with our dealer partners, training services negotiated with our dealer partners, or any added contract services agreed upon by the member and fits within the scope of the RFP.</p>

## Addenda, Terms and Conditions

### PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.
6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.
7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.
8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
  1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;
  2. Included on the government-wide exclusions lists in the United States System for Award Management found at: <https://sam.gov/SAM/>; or
  3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated

by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal.
