City Manager Steve Parker

FROM: Rusty Suarez, Assistant Chief of Police

REF: Tow Fee

DATE: April 20, 2026

Mayor Dodgen / City Council Members / City Manager Parker,

I am recommending a review and adjustment of the current tow fee structure to better reflect the rising costs associated with providing towing services.

Over the past several years, the cost of essential inputs such as fuel, vehicle maintenance, insurance, and labor has increased significantly. These cost pressures directly impact the operational sustainability of towing providers. Without periodic adjustments, existing fee schedules risk becoming outdated, potentially discouraging service availability or reducing service quality.

Thank you for your consideration of this matter.
