Through: Rick Cortes, Assistant City Manager

Subject: Force Main from Water Treatment Plant to Walnut Branch Wastewater Treatment Plant - Engineering Services Proposal

Date: November 12, 2019

At the request of the City of Seguin, TRC Engineers, Inc. prepared a professional engineering service proposal for the design, preparation of construction documents and bidding / construction administration for the replacement of approximately 4000 linear feet of force main used to transfer water treatment plant sludge to the Walnut Branch Wastewater Treatment Plant. This line is over thirty years old and has failed three times in the previous two years. Construction is budgeted for FY21. Services include environmental / cultural resources, topographical survey, and engineering services.

Services will be provided in accordance with the Master Service Agreement (dated December 16, 2003) executed by the City and TRC. The funding source is Utility Fund Capital Projects. Staff recommends acceptance of this engineering proposal in the amount of \$78,405.00 and will be available to answer any questions at the Tuesday, November 19, 2019 City Council Meeting.
