

MEMORANDUM

Date: November 19, 2015

To: Mayor Don Keil
City Council
City Manager Doug Faseler

From: Jose (Joe) R. Ramos, Jr., P.E.
City Engineer

Re: IH-10 Speed Zones

The City of Seguin recently received a notice from the Texas Department of Transportation (TxDOT) informing us that they have conducted an engineering and traffic investigation of IH-10, and have concluded that the maximum, reasonable and prudent speeds during the construction of the IH-10 frontage roads, between N. Austin Street (SH 123 Bus) and SH 46 is 65 mph.

Therefore, the IH-10 construction zone speed will be reduced from 75 mph to 65 mph for the duration of the project from Mile Post (MP) 12.813, which is approximately 1500' southwest of SH 46, to MP 15.127, at SH 123-B, for a distance of approximately 2.314 miles. Staff recommends approval of the attached ordinance, which is required to formalize the speed limits within the study boundaries.
