

Memorandum

To: Mayor and City Council Members
Steve Parker, City Manager

From: Terri Lynn Ruckstuhl, Director of Utilities

Through: Timothy Howe, Assistant City Manager

Subject: Resolution authorizing the City Manager to enter into an agreement with Fuquay, Inc. in the amount of \$550,000.00 for the Country Club Drive Utility Replacement Project; and declaring an effective date.

Date: August 12, 2026

Historical Background

The Utilities Department evaluated the condition of the wastewater infrastructure along Country Club Drive and determined that replacement is necessary. This recommendation is based on the number of maintenance work orders associated with the existing sewer main and its proximity to mature trees, which has made the line susceptible to root intrusion. The proposed improvements include replacing the existing six-inch (6") sewer main with a new eight-inch (8") sewer main.

Action Requested

Consider a resolution authorizing the proposal to pipe burst approximately 2,400 linear feet of 6" sewer main and other appurtenances.

Procurement

Methodology & Funding Source

A proposal was obtained from Fuquay, Inc. to pipe burst the existing sewer main, and other appurtenances based on contract prices from the purchasing cooperative known as BuyBoard. The total proposal amount is \$497,605.20. Funding for this project has been secured through certificates of obligation.

It's real.

Staff Recommendation

It is recommended that Fuquay, Inc. be awarded this proposal for \$497,605.20, plus \$52,394.80 in contingencies, for a total amount of \$550,000.00. Purchases using BuyBoard contracts comply with Texas Bidding requirements and Fuquay has completed similar projects to the satisfaction of the City.
