2001-130

2001-130 High Powered Outdoor Siren

The Federal Signal 2001-130 and Equinox sirens is a high power, rotating, unidirectional outdoor warning siren. The high-decibel output provides maximum coverage with minimum installation cost. The siren's projector produces a 60-degree projection of sound which rotates at 3 RPM and can produce three distinct warning signals: steady, wail and fast wail.

Eclipse8

Eclipse 8 Mid-Sized Siren

The Eclipse8 is a mid-sized DC-powered omni-directional siren for outdoor warning that produces high intensity warning signals. This powerful and lightweight outdoor siren provides coverage with a maximum sound pressure level of 115 dBc at 100 feet. The high decibel output provides maximum coverage with minimum installation costs. Operating from 48VDC, the siren utilizes the DC motor of our 2001 siren series for proven reliability.

Terms & Conditions

This estimate is an approximation and is not guaranteed. The estimate is based on information provided from the customer regarding project requirements, needs, and wants. Actual cost may change once all project elements are finalized or negotiated. Prior to any changes of cost, the customer will be notified. Estimate valid for 30 days unless otherwise indicated.

Goddard Enterprises reserves the right to accept or reject any order, in our sole discretion. Order acceptance is expressly limited by and to the terms and conditions stated herein, which supersede any terms and conditions set forth in any document you provided to us.

Prices are subject to change and are exclusive of any applicable sales or other taxes, freight, handling and insurance charges. Freight quotations are provided as estimates only – actual freight charges are determined at the time of shipping and may differ from the amount originally quoted. The cost of any equipment within this estimate exceeding \$30,000 will be due at time of shipment unless otherwise arranged with Goddard Enterprises.

Any Installation that requires network access will be customers responsibility to facilitate and must be completed before work or commissioning can begin. All network requirements must meet factory recommendations to gain factory support.

If the solar option is not chosen. It will be the customers responsibility to bring power and electric service to the pole.

Rock Clause: Rock, poor soil conditions, water in excavations and other unforeseen site conditions may incur additional charges upon digging.

Any site requiring potholing will be issued a change order.

You agree to be bound by these Terms and Conditions in effect at the time of purchase. You also agree that we may change any of the Terms and Conditions upon 15 days written notice to you and that such changed Terms and Conditions will apply to any subsequent transactions with us. Additionally, you agree that in the event that any portion of these Terms and Conditions are found to be unenforceable, the remainder will remain in full force and effect.
