

Mr. Doug Faseler
 City Manager
 City of Seguin
 210 E. Gonzales
 Seguin, TX 78155-5643

April 1, 2015

Dear Mr. Faseler:

As your partner in providing solid waste services to the City of Seguin, Progressive Waste Solutions of TX, Inc. (formerly IESI TX Corporation) always strives to provide the highest quality services at the lowest possible price. As you are aware, our costs of labor, health insurance, disposal and fuel increase every year.

We respectfully submit a rate adjustment based on the agreement as outlined on pages 7-8 in Section 10 Rate Adjustment, paragraph E. Fuel Cost Adjustment, in the event the semi-annual average price of fuel is less than the base price, the fuel cost adjustment shall be a downward adjustment to all rates and in accordance with the chart in Exhibit “D” of the contract, Fuel Surcharge Table. Since the six month period of the year September 30th, 2013, fuel costs had decreased and the effect was an initial fuel cost adjustment decrease. The initial six month fuel cost adjustment of the year is calculated as follows:

Fuel Cost Adjustment:

Trash

	<u>August 25, 2013</u>	<u>March 30, 2015</u>
Exhibit “D” Base Line Unit Price	\$11.15/Mo.	\$11.15/Mo.
Average Price per Gallon	\$3.732/Gal.	\$2.675/Gal. (\$3.25- 6 mo. avg.)
Exhibit “D” Adjusted Unit Trash Rate	\$11.63/Mo.	\$11.31/Mo.
Current Contract Trash Price/Home	\$12.57/Mo.	\$12.25/Mo. (Adjusted)
Effective % Cost Adjustment		-0.028%

Recycling

- Recycling is separate from the trash and therefore, the fuel surcharge table is not applicable to the recycling rates. However, the semi-annual fuel cost adjustment is applicable by the percentage change in the average price of diesel fuel during the six month period. The effective percentage of fuel cost adjustment would be a decrease of -0.028% for recycling. However, the contract provides that the recycling rate cannot go below \$3.00 per month, and since there are no other applicable increases in the rate adjustment for the period of August 25, 2014 to March 30, 2015, the recycling rate will not be impacted by the fuel cost adjustment for this six month period and will remain at \$3.00 per month.

Contract Recycling Price/Home	<u>\$ 3.03/Mo.</u>	\$ 2.95/Mo. (Adjusted)
Effective % Cost Adjustment		-0.028%
<i>(Contract Net Recycling Price cannot go below \$3.00/Mo.)</i>		\$ 3.00/Mo. (per contract)

Total

Current Total Contract Trash Price/Home	\$12.57/Mo.	<u>\$12.25/Mo. (Adjusted)</u>
Current Total Contract Recycle Price/Home	<u>\$ 3.03/Mo.</u>	<u>\$ 3.00/Mo. (Adjusted)</u>
Current Total Contract Price/Home	\$15.60/Mo.	<u>\$15.25/Mo. (Adjusted)</u>
Total Adjusted Cost/Home/Month		<u>-\$ 0.35/Mo.</u>

New Total Residential Rate:

\$15.25/Mo.

As shown above, the total semi-annual fuel cost adjustment of – 0.028% will equal a total adjustment to rates of **-\$0.35 month for all residential accounts.**

We are requesting that this rate decrease would be scheduled to take effect on April 1, 2015. The new rates would be as scheduled on following Exhibit “A”.

If you have any questions do not hesitate to contact me at 830-372-9303. We truly appreciate the opportunity to be your solid waste service provider and look forward to continuing our public-private partnership.

Best Regards,

James R. Hare
