60 Hertz, 65 Deg. C Rise, ONAN, Dead Front/Loop Feed

Designed for a 40° C maximum ambient with a 30° C average for any 24 hours period

Primary voltage: 12470GrdY/7200 (95kV BIL)

Primary Termination: (6) 200 Amp Bushing Wells with 15kV load-break bushing inserts

Primary Taps: 2 @ 2.5% FCAN & 2 @ 2.5% FCBN / 5 Position de-energize tap changer

Secondary voltage: 480Y/277 (30kV BIL)

Secondary Termination: (4) 10-Hole Spade Bushings with Supports (HO/XO w/Removable Ground Strap)

Impedance: Standard

Conductor: Aluminum primary and secondary windings

Insulating Fluid: New Type II Mineral Oil

**Accessories:**

Liquid Level Gauge

Dial Type Thermometer

Pressure Relief Valve

Pressure/Vacuum Gauge

1" Drain valve with 3/8" sampler

1" Upper fill plus and filter press connection

Gas sample/pressure test port

Penta head security door bolts

Paint: Padmount Green (Munsell #7GY3.29/1.5)

Testing: IEEE/ANSI C57 Standards

Warranty Included

**Price Each: \$89,270**

**Approval Drawings (If required): 2-3 weeks**

**Lead Time: Ships from Houston facility in 22-24 weeks after receipt of order and approval of drawings**

**Freight Terms: Freight Allowed to Texas Locations only**

**ATSCO PAYMENT TERMS:**

**30% at time of order**

**30% once final test reports are provided prior to shipment**

**40% Net 30 Days**

## Terms & Sales Conditions

### Warranty Condition

- a. The term of this Warranty shall be the lesser of twelve (12) months from the date of B/L or eighteen (18) months from the date of manufacture, whichever occurs first.
- b. Supplier and Purchaser should comply with Oregon Power Standard Warranty Procedure. If within the Warranty period any Equipment shall be proved to Supplier's satisfaction to be defective, such Equipment shall be repaired or replaced at the Supplier's option. Decision on the method and extent of repairs rests solely with the Supplier. Supplier's obligation hereunder shall be limited to such repair or replacement, F.O.B. its factory, and shall be conditioned upon Supplier's receiving written and valid claim report with detail information of any alleged defect with within five (5) days after its discovery and at Supplier's option, return of such Equipment or parts prepaid to Supplier's factory. The costs for removal of defective Equipment shall be at Purchaser's expense.
- c. In order to be covered by this Warranty, the Equipment must be properly installed according to accepted industry practices and protected by properly installed and coordinated voltage surge suppressors, current overload, and other current protective devices as appropriate. This Warranty does not cover Equipment that has been subjected to negligence, abuse, accident, damage by circumstances beyond Supplier's reasonable control, improper installation, operation. Maintenance or storage; modification other than by Supplier; or storage or operation in "Unusual Service Conditions" as defined by IEEE Standard C57.12.00.
- d. In order to qualify for repair or replaced under the provisions of this Warranty, the Supplier may require that defective Equipment be returned to the Supplier's factory and in such event will provide written authorization to the Purchaser. The Supplier will not be responsible for Equipment returned without such written authorization. The Supplier will assume no liability for expenses incurred for repair or replacement of Equipment that is not in accordance with the provisions of the Warranty.
- e. This warranty states the Supplier's entire and exclusive liability and the Purchaser's exclusive remedy, and Supplier hereby disclaims all other warranties of any sort, express or implied, except that of title, and Supplier hereby specifically disclaims any implied warranties of merchantability, course of dealing, usage of trade and fitness for a particular purpose, notwithstanding and purported terms and conditions in any document prepared by Purchaser in connection with this sale. Supplier shall not be liable for consequential, special or incidental damages of any kind whatsoever, including, but not limited to, loss of revenue or profits.

### Sales Condition

- a. General 1. The standard terms and conditions as stated herein constitute the sales contract between Supplier and the Purchaser, unless otherwise noted on a Company quotation or order acknowledgment. In the event of a conflict between the provisions of a Supplier quotation or order acknowledgment and the standard terms and conditions as stated herein, the provisions of the Supplier's quotation or order acknowledgment shall prevail. 2. No part of these standard terms and conditions may be altered nor may any additions or deletions be made unless authorized in writing by the Supplier.
- b. Quotations 1. Quoted prices shall not include sales, use, excise, or any other state and local taxes for which the Purchaser may be liable. 2. Written and verbal quotations shall expire thirty (30) days from the date of the quotation. c. Purchase Orders 1. All purchase orders shall be subject to the approval and acknowledgement of the Supplier. The Supplier shall reserve the right to decline any order.
- c. Purchase Orders 1. All purchase orders shall be subject to the approval and acknowledgement of the Supplier. The Supplier shall reserve the right to decline any order.
- d. Schedules 1. Upon receipt of a purchase order and its entry into the production schedule, the Supplier shall send to the Purchaser an acknowledgment, which states an estimated shipping schedule. It shall be the Supplier's intent to honor this schedule if possible. 2. The Supplier shall not be held liable for delay in performance or failure to perform its obligations, if such delay or failure to perform results from situations not reasonably within the Supplier's control including acts of God, strikes or other labor disputes, civil or military insurrection or riot, delays in transportation, delays as a result of poor vendor performance; casualties such as fire or explosion, or the acts, regulations, or restrictions of governmental authorities 3. In cases where the Purchaser requires approval drawings, the production schedule shall begin on the date the approved drawings are received by Supplier. This schedule shall be based on current production capabilities and shall supersede any previously stated schedule. 4. Modification of existing orders by the Purchaser may cause a change in the originally stated shipping schedule. 5. The Supplier reserves the right to manufacture and ship any items in advance of the acknowledged shipping schedule, unless expressly forbidden by the Purchaser at the time of the order entry.
- e. Cancellation and Modification 1. The Supplier may hold the Purchaser liable for any expenses incurred or commitments made on any purchase order that is canceled or modified by the Purchaser. In the event the company chooses to manufacture any items in advance of the acknowledged schedule and such advance manufacture is not expressly forbidden by the Purchaser, such advance manufacture shall not void the Purchaser's liability for modifications and cancellation charges as stated herein.

### 2. Cancellation Policy

- 15 % of total amount if cancelled prior to submission of drawings.
- 25 % of total amount if cancelled after submission of drawings.
- 75% of total amount if cancelled after release of drawings and/or order is scheduled for production.
- 100% of total amount if cancelled after production has started.

**Shipment**

a. The above quoted transformer will be shipped to your specified destination in Texas. The quoted price is based on shipment as far as the original shipping vehicle can go. If any obstructions are encountered the customer will be responsible for getting the transformer and its accessories to the end destination including any truck demurrage if required. Unloading of the transformer(s) is to be provided by others. No field services will be provided.

**Best Regards,**

**Errol Humphrey**
