PLANNING DEPARTMENT ANALYSIS

CASE SUMMARY:

The applicant is refining the site layout for Greenspoint, and as particular developments and land uses are identified, the zoning districts are being updated to match.

SITE DESCRIPTION:

The overall Greenspoint site is approximately 270 acres and extends from the railroad tracks to SH 46. The three tracts on which the zoning changes are proposed are all currently undeveloped and surrounded by other undeveloped tracts. The Corner Store at the corner of Rudeloff and SH 46 is currently the only developed part of Greenspoint.

COMPATIBILITY WITH SURROUNDING LAND USES & ZONING:

The majority of the land surrounding this property is not developed and/or in agricultural use. This is an area of growth, and the proposed uses – single-family residential and commercial, are compatible with the other proposed uses in the area.

COMPREHENSIVE PLAN:

The properties are located in the Farm, Town Approach, and Emergent Residential Districts.

HEALTH, SAFETY, AND GENERAL WELFARE: (Protection & preservation of historical, cultural, and environmental areas.)

The site has not been identified to be of historical, cultural, or environmental significance.

TRAFFIC (STREET FRONTAGE & ACCESS):

The properties have frontage on the future outer loop (shown as Greenspoint Pkwy) and Greencrest. All properties have adequate potential for access for the zoning districts proposed. The outer loop will be a major arterial, and Greenspoint will be a collector. Access points and other transportation improvements will be determined during the platting and site review processes.

INDIVIDUAL CASE ANALYSIS:

ZC-13-16

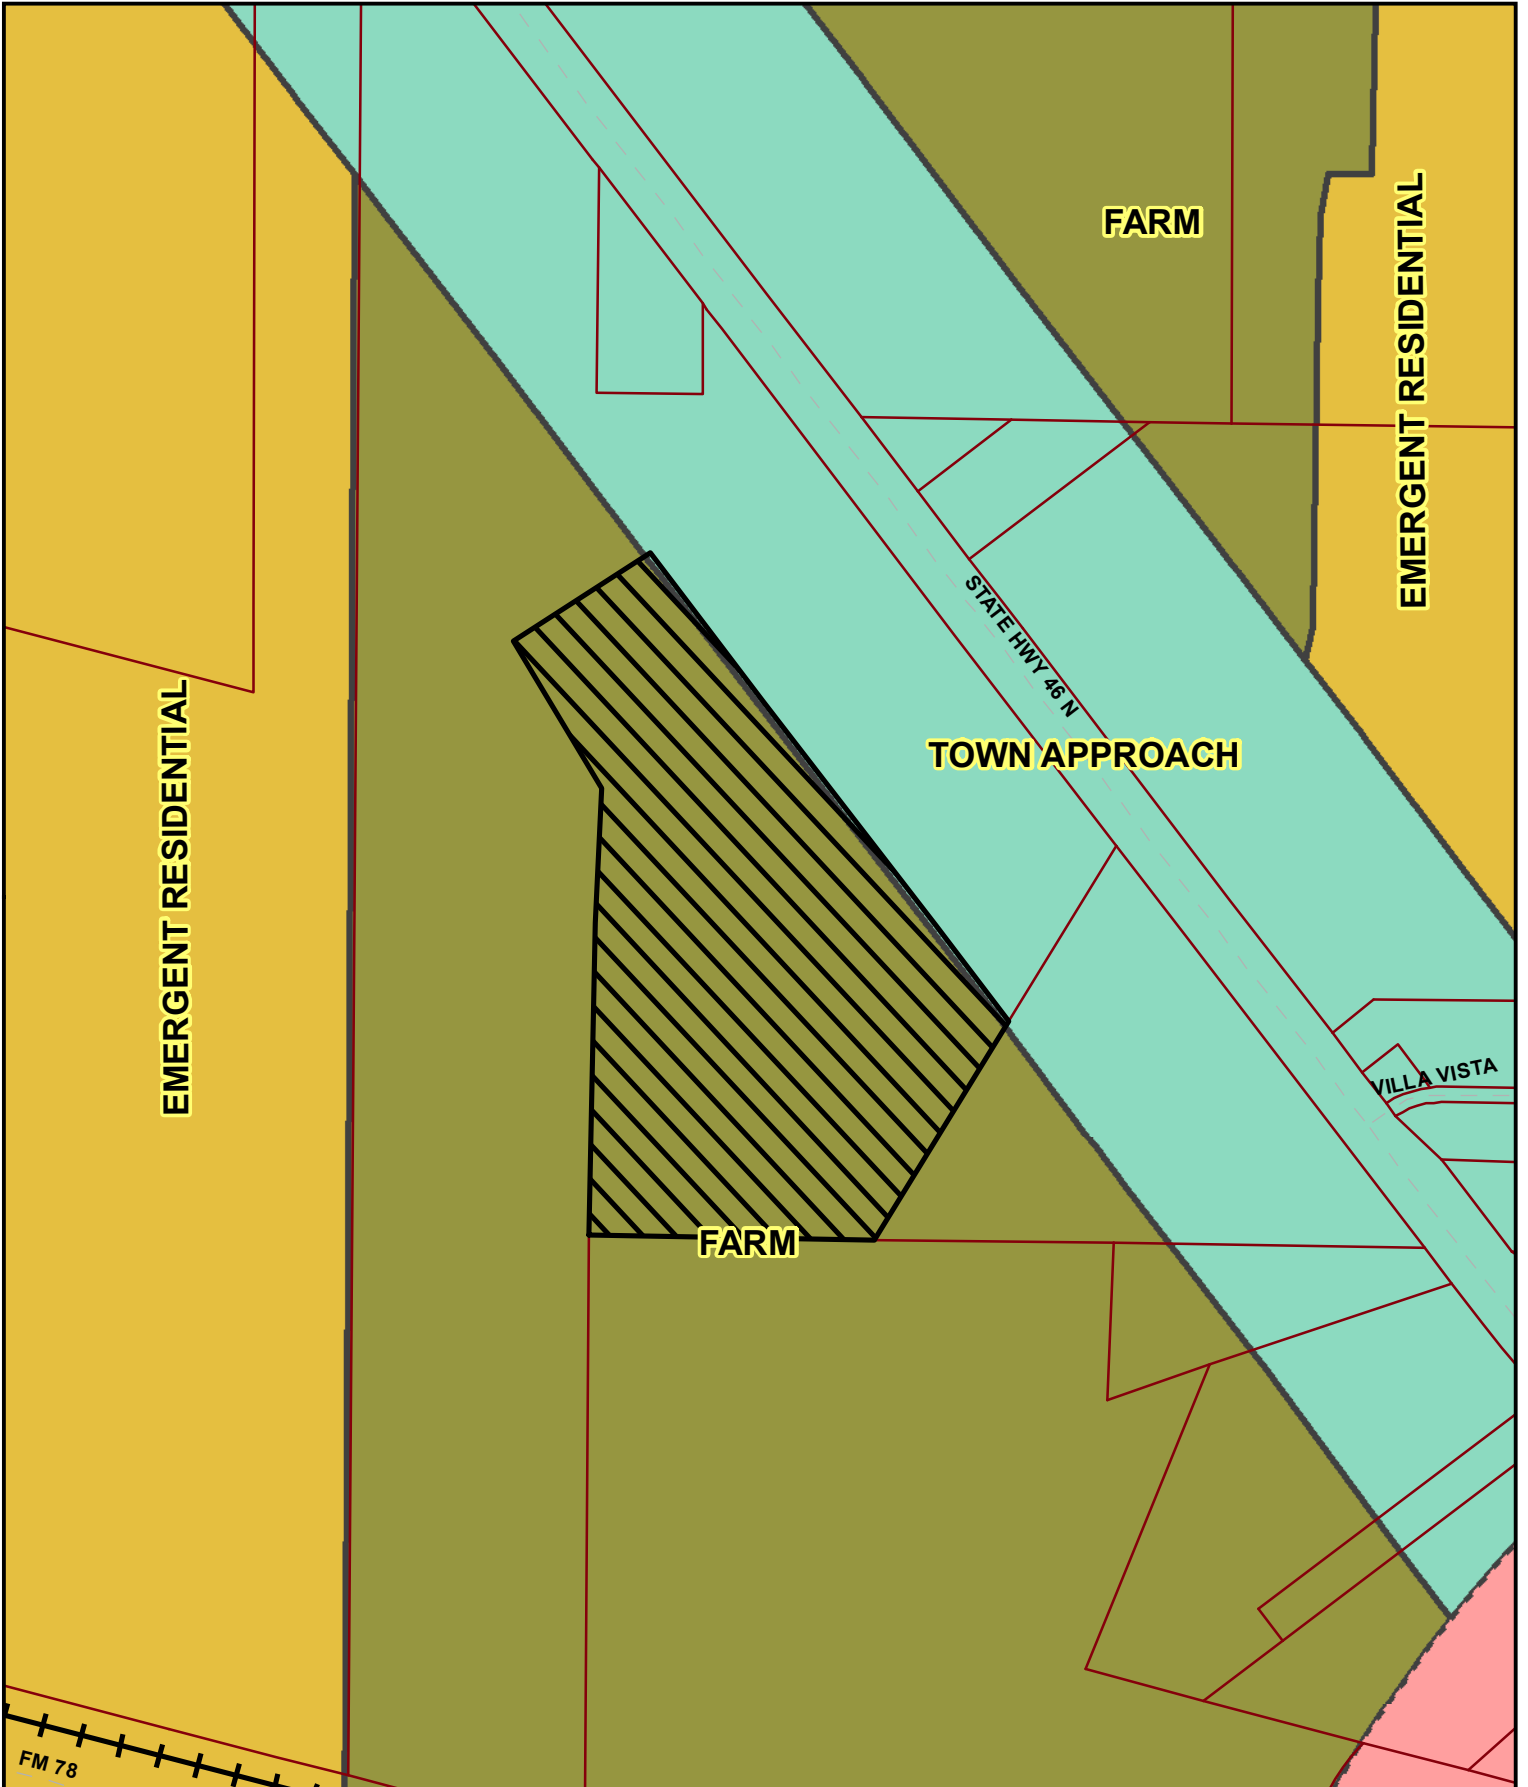

The requested change is from Commercial to R-1 for a 3.862 acre tract. The property is proposed to be developed as single-family residential. The current commercial designation was established at annexation, as all properties in this area were zoned commercial along SH 46 to a depth of approximately 500 feet. The portion of the property fronting SH 46 will remain Commercial, but the commercial development proposed along 46 will not require this depth. Because this site has several large trees, it is an attractive location for single-family. The proposed single-family designation is consistent with the adjacent R-1 zoning and proposed development.

ZC-14-16

The requested change is from R-1 to Neighborhood Commercial for an 8.32 acre tract. The applicant intends to develop the tract with small-scale service or commercial to serve the immediate area. Neighborhood commercial is the appropriate designation, and the site is well suited for this at the future intersection of a collector and the outer loop.

ZC-15-16

The requested change is from R-1 to Commercial for a 31.59 acre tract. The application states that the intent is to build a shopping center at the corner of the outer loop and SH 46. This tract is likely to be developed along with the tract already zoned Commercial along SH 46. The location at the intersection of two major arterials is suitable for large commercial use. A small portion of the tract is within zone A, which is the unstudied area of the 100-year floodplain. A study will be required prior to development.
