

**Memorandum**

**To:** Mayor and City Council Members  
Steve Parker, City Manager

**From:** Terri Lynn Ruckstuhl, Senior Utilities Engineer

**Through:** Timothy J. Howe, Director of Utilities

**Subject:** Peach Street Utility Replacement Project

**Date:** May 19, 2026

**Historical Background**

Peach Street is scheduled for improvements. The Utilities Department has executed numerous work orders on both the water and wastewater infrastructure, which is the basis for the decision to move forward with this infrastructure replacement project. Proposed improvements include replacing two, three, four, and six-inch water mains as well as a six-inch sewer main with eight-inch water and sewer mains.

**Action Requested**

Consider a resolution authorizing a proposal to install approximately 2,700 linear feet of 8-inch water main and pipe bursting approximately 2,500 linear feet of 6-inch sewer main and other appurtenances.

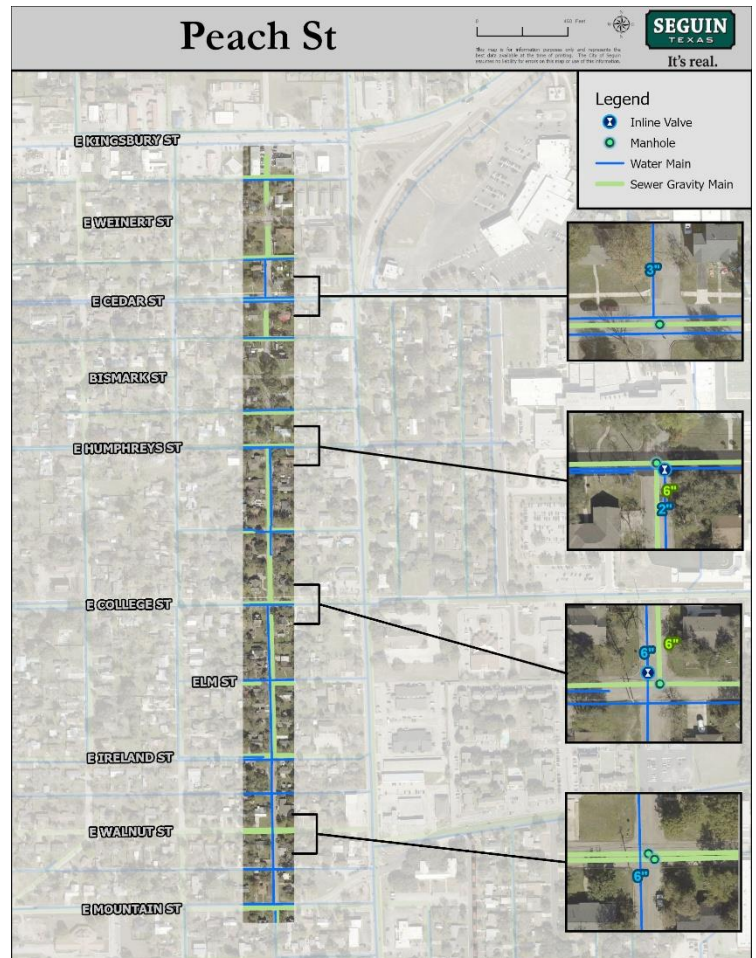

**Procurement Methodology & Funding Source**

A proposal was obtained from Fuquay, Inc. to install a new 8-inch water main, pipe burst the existing sewer main, and other appurtenances based on contract prices from the purchasing cooperative known as BuyBoard. The total proposal amount is \$1,633,288.28.

Funding for this project has been secured through certificates of obligation.

**Staff Recommendation**

It is recommended Fuquay, Inc. be awarded this proposal for \$1,633,288.28, plus \$97,711.72 in contingencies, for the total of \$1,725,000.00. Purchases using BuyBoard contracts comply with Texas Bidding requirements and Fuquay has completed similar projects to the satisfaction of the City.
