

1-12-24

Dear Melissa Reynolds,

My name is Maria R. Martinez my Address is 809 E. Pine
I am seeking your help in solving this matter.

On 1-12-24 an 18 wheeler Truck Came thru our st.
its narrow to begin with and it took some wires
down. The wires are low also, I'm sure he knew
what he did but kept going. He turned on Heideke St
to the industrial Area. Now my concern is one
of this days they're going to knock the pole down.
There's a busman also across our here very busy,
Area. That pole could go down on my house
or neighbors. I believe that 18 wheelers should
not go thru our residential st. I am

asking for a street sign that reads No 18 wheelers
or big trucks. I know I've seen the signs.
They go thru our streets to take short cuts.
Couple of years I complained about speeder race
thru here and they put speed limit sign I am
very grateful for that. I sure would appreciate
if my request is honored.

Also there's a house that burned down last year
on our street appalls they had no insurance.
So its still there its dangerous kids playing around
there. Can't it be knocked down by the city.
I don't know the address it sits in the corner
of Pine + Olive St. The Zamora house.

Please responded back to me whether it can
be done. Thank you for your service.

Sincerely
Maria Reyes Martinez
