TO: City of Seguin City Council
Mr. Doug Faseler, City Manager

FROM: Terry Nichols, Chief of Police

SUBJECT: Purchase of Communications Center Furniture

DATE: October 24, 2019

The 2019-2020 budget includes funding for a complete migration from our current Motorola radio system to the LCRA regional radio system. Part of this project includes six (6) new radio consoles in the Communications Center at the Police Department (an increase of 1 additional console from our current 5).

These new consoles and adding a 6th console will require new furniture for the Communications Center. The current furniture housing the communications equipment is original to the building which was constructed in 2006 (13 years old).

Staff has researched different communications center furniture options and worked with Bexar Metro in San Antonio to ensure the new furniture is scalable and meets current industry standards. Staff recommends purchasing the Communications Center furniture from RussBassett for a total of \$119,368 utilizing the cooperative purchasing agreement of HGAC Buy Contract EC07-18.
