City Manager

Re: Amendment to the Niagara Capital Improvement Agreement

As discussed and approved at the September 15, 2015 City Council meeting, the replacement of the 12 inch sanitary sewer main within the Eighth Street right of way is needed. This sewer main lies within the same right of way where the Eighth Street roadway is going to be constructed as a concrete street. As discussed, Niagara has agreed to have the Capital Improvement Agreement between Niagara and the City amended to include the construction of the sanitary sewer main.

Please see the attached proposed resolution and Amendment to Capital Improvement Agreement for City Council approval.
