

Asphalt Distributors

Trailer Mounted Series

RMT-1000 Asphalt Distributor

The Rosco 1,000-gallon road maintenance trailer (RMT) is a versatile asphalt distributor providing a cost-effective and heavy-duty unit for contractors and government agencies.

The RMT features a 12-foot, fully circulating spraybar and individual nozzle quick-disconnect which allows the operator to control spray width in 4-inch increments. The operator controls gallons-per-minute, rotary valve control, and spraybar on/off/bar circulate from the towing vehicle via a wired control box.

The RMT gives operators truck-mounted, distributor ease of operation and productivity in a trailer-mounted unit.

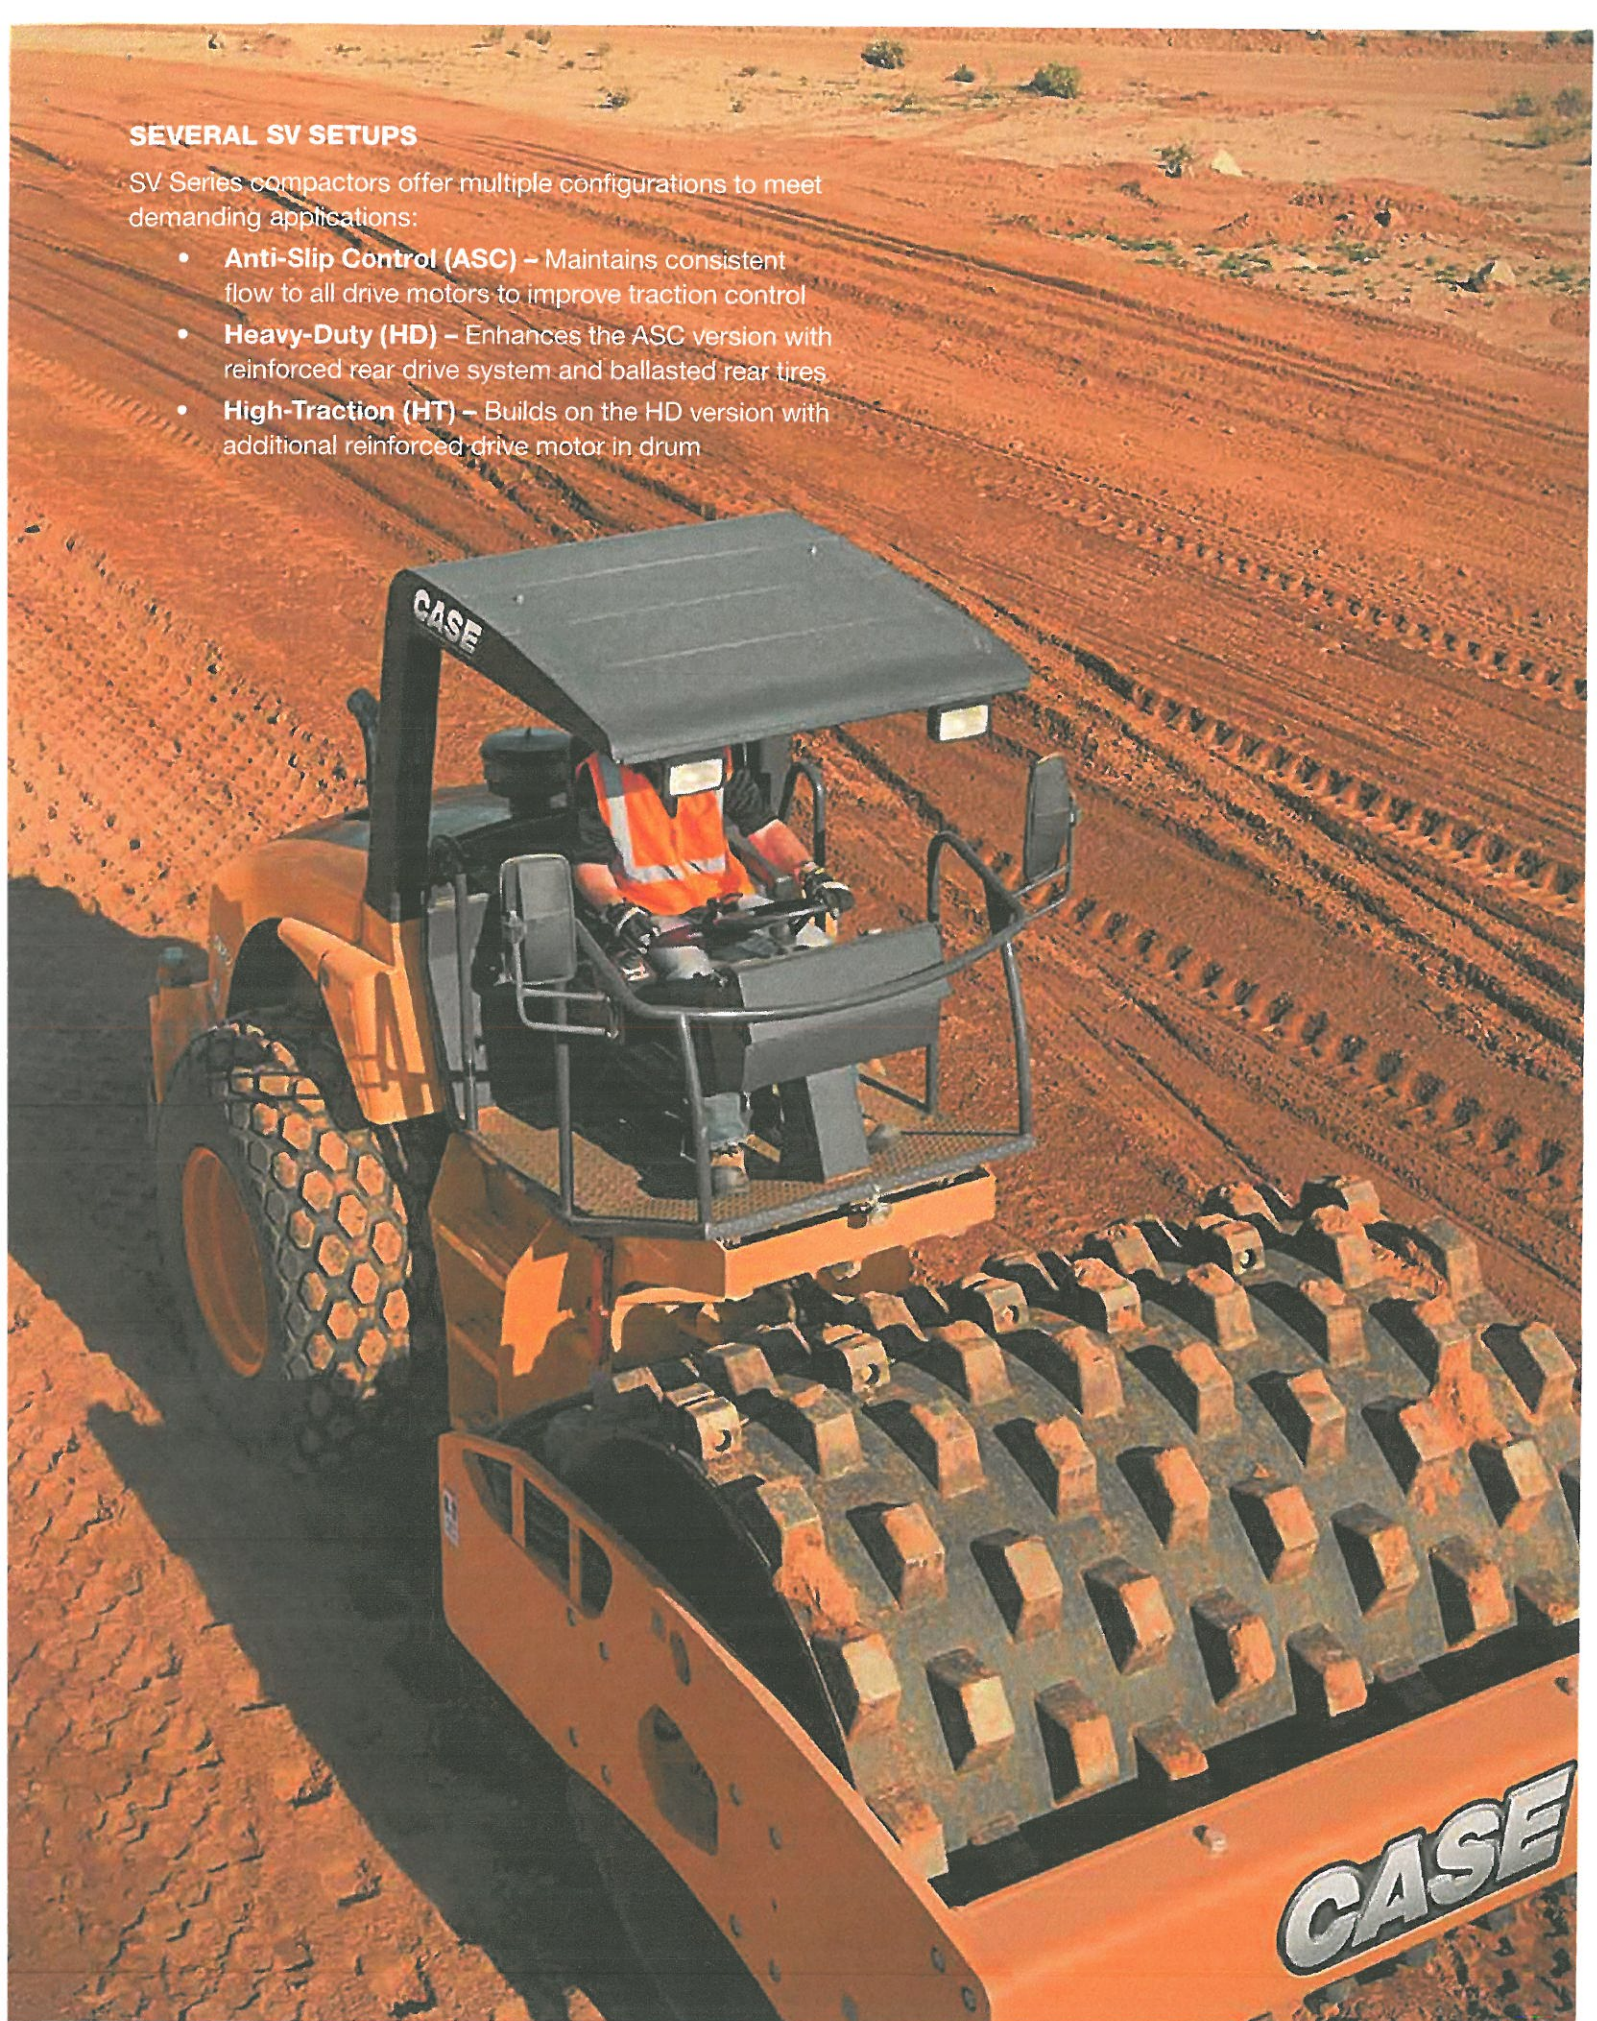

In-cab controller box controls gallons-per-minute, rotary valves, and spraybar on/off/bar circulate from the towing vehicle.

SEVERAL SV SETUPS

SV Series compactors offer multiple configurations to meet demanding applications:

- **Anti-Slip Control (ASC)** – Maintains consistent flow to all drive motors to improve traction control
- **Heavy-Duty (HD)** – Enhances the ASC version with reinforced rear drive system and ballasted rear tires
- **High-Traction (HT)** – Builds on the HD version with additional reinforced drive motor in drum

MAINTENANCE MADE EASY.

SERVICEABILITY IS IN OUR DNA

When you invest in CASE equipment, you need it to last. We make it simple. CASE SV and PT compactors are no exception. From flip-up hoods to ground-level service points to easy-access drains, you can do daily maintenance in a matter of minutes. It's the easiest way to help you get the most performance and longest life out of your machine.

EASY ACCESS TO SV

1. Oil fill
2. Air filters
3. Lockable fuel cap
4. Battery
5. Cooling system
6. Flip-up hood
7. Tiltible operating platform
8. Heavy-duty roller bearing

MAINTENANCE-FREE FEATURES

- Heavy-duty rubber drum mount
- Self-lubricating exciter system
- High-capacity roller bearing
