THIS QUOTATION IS SUBJECT TO POLICIES IN THE CURRENT PLAY & PARK STRUCTURES CATALOG AND THE FOLLOWING TERMS AND CONDITIONS. OUR QUOTATION IS BASED ON SHIPMENT OF ALL ITEMS AT ONE TIME TO A SINGLE DESTINATION, UNLESS NOTED, AND CHANGES ARE SUBJECT TO PRICE ADJUSTMENT. PURCHASES IN EXCESS OF \$1,000.00 TO BE SUPPORTED BY YOUR WRITTEN PURCHASE ORDER MADE OUT TO PLAY & PARK STRUCTURES, C/O Play & Park Structures of Southern Texas.

Pricing: f.o.b. factory, firm for 30 days from date of quotation.

Freight charges: Prepaid & added

Installation: A certified Play & Park Structures Installer is recommended for play equipment installation. Customer shall be responsible for scheduling coordination and site preparation. Site should be level and permit installation equipment access. Purchaser shall be responsible for unknown conditions such as buried utilities, tree stumps, bedrock or any concealed materials or conditions that may result in additional labor or material costs.

Submittals: our design proposal reflects the spirit and intent of the project plans and specifications. While some variations may exist between our quotation and the project design, the differences do not materially affect the intended use. Play & Park Structures designs and specifications are unique and not intended to be identical in all respects to other manufacturers. We shall submit for review and approval by the owner's representative detailed drawings depicting the equipment to be furnished accompanied by specifications describing materials. Once approved, these drawings and specifications shall constitute the final documents for the project and shall take precedence over all other requirements.

Exclusions: unless specifically included, this quotation excludes all site work and landscaping; removal of existing equipment; acceptance of equipment and off-loading; storage of goods prior to installation; equipment assembly and installation; safety surfacing; borders and drainage provisions.

LEAD TIME:

PLEASE ALLOW 5 - 7 WEEKS or LESS for delivery AFTER sealed drawings are approved.
Quotes valid for 30 DAYS. Price is for product only, unloading & installation by others if not quoted.

Rock Clause/Engineered drawings

If conditions are encountered on the site which are subsurface or otherwise concealed physical conditions which differ materially from those contemplated, or physical conditions of an unusual nature are encountered and cause a furtherance to the Contractor in time or materials, the Contractor shall be entitled to an equitable adjustment in the contract price, an extension of the completion date, or both, by change order. If rock drilling is necessary as deemed by Play and Park Structures and its affiliates, a change order will be necessary to cover the additional costs of the drilling and this cost could be significant. We do our best to estimate the pier size of the footer; however, if the customer requests and pays an additional fee for engineered drawings this could significantly increase the size of the footer and the dollar amount of the installation.

Furthermore, the Contractor will not be held responsible for any damage to all subsurface obstructions.

The owner will clearly identify boundaries of the property, shall provide surveys/as-builts of the property describing physical characteristics, legal limitations and utility locations and/or cause the property to be staked if reasonably requested by the Contractor. The owner is obligated to provide notice of all concealed conditions, and shall provide and pay for water and electricity to the property.

Engineered drawings – If your project requires engineered drawings the engineering will be done after the completion of the sale at an additional cost to the customer. The estimated pier size prior to the engineering is an estimate and the engineer's calculations could require an increased size of concrete pier for your shade structure. This would require additional concrete and/or steel along with additional labor and/or equipment rental at additional cost to the customer. Engineered Sealed Drawings, Engineered Footings and Engineered Calculations - IF QUOTED - they are based on local and state construction codes and specifications. Wind Loads, Snow Loads and Seismic requirements are all verified with these Documents. Rates vary per state.
