Re: Guadalupe County Agricultural Ext. Building at 210 East Live Oak

Guadalupe County is about to begin the remodeling project of the Agricultural Extension Building downtown. These offices continued presence, and this investment in the core of our city, contribute to our downtown. Commissioner Kutscher has requested our consideration of waiving the permit fees as we have in the past on similar projects downtown. The estimated fees are approximately \$7,000.00.

I recommend favorable consideration of this request.
