Subject: Hurricane Harvey Infrastructure Application

The Texas General Land Office has announced a grant program to support recovery in the after effect of Hurricane Harvey. The City is applying for monies to fund the purchase of the replacement firetruck. The firetruck was totaled during Hurricane Harvey, costing the City \$617,180.00 in unexpected monies.

The application process for the GLO program consists of a GLO application with narrative documents. We are applying for \$234,000.00 to go towards the payment of tax notes that were used to purchase the vehicle originally. The application is due to be submitted in full by April 30, 2019 to GLO in accordance with the grant requirements.

Staff requests approval to submit the final application for this grant program.
